

## **Skin Protection / UV Policy**

The Murrina Group will provide employees with a healthy work environment. It is acknowledged that skin cancer is a major public health problem. Exposure to ultraviolet radiation (UVR) from the sun for extended periods has been identified as a major cause of skin cancer. The intention of this policy is to reduce the outdoor exposure to UVR through the following control strategy:

- Provision and use of personal protective equipment (PPE)
- Sun protective work clothing
- Broad brimmed hats or hard brim attachments
- Sunglasses as appropriate
- Sunscreen
- Changing work hours where applicable to reduce exposure to the sun
- Education and training
